

Darell Fischer, PE, DBIA
Chief Business Officer
Rinker Design Associates (RDA)

Mr. Darell Fischer, PE, DBIA, Chief Business Officer (CBO) for Rinker Design Associates (RDA), brings 39 years of extensive roadway design and design-build (DB) experience to the team. He has managed all technical and disciplinary aspects of roadway design and has served as Design Manager on 12 DB projects totaling more than \$800 million, as well as Design Quality Manager on an additional four DB projects valued at over \$300 million.

In these roles, Darell was responsible for coordinating all design disciplines, managing comprehensive QA/QC programs, and ensuring full conformance with project requirements and specifications. His proven ability to resolve complex design challenges through innovative, context-sensitive solutions demonstrates his in-depth knowledge of state and local design criteria for projects of all sizes.

As CBO, Darell leads RDA's DB practice and is responsible for companywide business development, including procuring work, opening and expanding offices, reviewing contracts, overseeing fleet management and company safety, and ensuring overall company success.

Darell is actively involved in advancing alternative project delivery throughout the region. He has served as Chairperson of the Alternative Project Delivery Committee for the Virginia Transportation Construction Alliance (VTCA) and is past President of the Central Virginia Chapter of the Design-Build Institute of America (DBIA).
