

Thompson Hunt, MBA, Assoc. DBIA
National Business Development Manager
Ferguson Waterworks

Thompson Hunt is a business development and supply chain leader with more than 10 years of design-build experience. He is currently a Business Development Manager at Ferguson, where he leads strategic supplier partnerships, integrates upstream constraints into complex design-build programs, and helps project owners leverage funding opportunities to deliver key initiatives.

Previously, he held leadership roles at SEKO Logistics, managing global medical supply chain operations and driving meaningful cost and operational improvements. Earlier in his career at Clark Construction Group, Thompson supported the pursuit and delivery of large-scale design-build and infrastructure projects and served as an internal instructor for engineering and construction curriculum.

Thompson is actively engaged in the design-build community as Chair of the Owner Outreach Committee for DBIA National and is involved with the Water Collaborative Delivery Association (WCDA). He holds a B.S. in Civil Engineering from The George Washington University and an MBA from Penn State University.
